2 of 2 review helpful an ininteresting collection of short stories worth reading By K Kennedy The Jews of Barnow by Karl Emil Franzos is a collection of short stories about a small town in Galicia during a turbulent period the late

nineteenth century For example traditional Judaism was being confronted with individuals seeking reforms Jews were slowly receiving civil rights interactions between Jews and Christians w ldquo Mr Froude has been much blamed little lauded for what he wrote in regard to an oppressed race It was somewhat as follows that those who could not fight for their freedom did not deserve it It sometimes happens that fiction produces effects where facts fail It is believed then that Franzos s stories will not only be of interest to numerous readers but in the hands of the reformed Jew by means of the lessons it teaches help him in his earnest efforts About the Author Austrian novelist of the late the 19th century 1848 1904
