7 of 7 review helpful Glad I took a chance By London I love Scott s Stage Dive series so when I read about Flesh I was a bit dubious because I thought it would never work as a romance story But 40 books latter and a few recent disappointments in my book selection and I took a leap I mean for me Zombies and romance don t go hand in hand and add to that a love triangle and I thought not a chance I m going to like this Ali has been hiding in an attic since civilisation collapsed eight weeks ago When the plague hit her neighbours turned into mindless hungry homicidal maniacs Daniel has been a loner his entire life Then the world empties and he realises that being alone isn t all it s cracked up to be Finn is a former cop who is desperate for companionship and willing to do anything it takes to protect the survivors around him A fast fun and occasionally frenzy inducing read but what made this one click for me was the intense personal connection Maryse s Book Blog Flesh is an engrossing and intriguing book I thought it would be a fun hot read nb
