Worlds We Think We Know: Stories:

3 of 3 review helpful Remarkable new writer By igoforth This is a terrific collection of short stories by a remarkable new writer Unlike so many of the most highly regarded modern short fiction writers Rosenfeld is never bleak and never sour even as she explores often disappointing worlds I was sometimes puzzled and unsettled by these stories they expect and repay a willingness to follow the author s often sur Fiercely funny and entirely original this debut collection of stories takes readers from the United States to Israel and back again to examine the mystifying reaches of our own minds and hearts The characters of The Worlds We Think We Know are animated by forces at once passionate and perplexing At a city zoo a mismatched couple unite by releasing rare birds After being mugged in the streets of New York a professor must repeat the crime to recover h Praise for The Worlds We Think We Know ldquo A profound debut from a writer of great talent rdquo Adam Johnson author of The Orphan Master s Son ldquo I rsquo ve read Dalia Rosenfeld rsquo s stories with huge admiration
