0 of 0 review helpful Not what I expected By Kilian85710 One day rummaging around in the family freezer Bernie Karp unearths a man frozen into a block of ice Upon asking his father about him he is told that he is a family tradition and there is a book about him As he reads the book we are transported to 1889 and the holy man Rabbi Eliezer ben Zephyr the Boibiczer prodigy When he wished to get closer to God he wo Award winning novelist Steve Stern s exhilarating epic recounts the story of how a nineteenth century rabbi from a small Polish town ends up in a basement freezer in a suburban Memphis home at the end of the twentieth century What happens when an impressionable teenage boy inadvertently thaws out the ancient man and brings him back to life is nothing short of miraculous From Booklist Starred Stern rsquo s uproarious and trouncing romp through the anguish and ironies of the Jewish diaspora matches mysticism with mayhem beatitude with organized crime creativity with crassness
