0 of 0 review helpful Gripped me right from the start By Shaz49 I like this book so much that I couldn't believe it was over I read it on my kindle and kept trying to turn the page for the next chapter when I finally realized I was at the end In fact that would be my only complaint It ended so abruptly it was almost shocking Wish the author had gone into a little more detail you'll understand when you get there A sweeping tale of consequences spanning the 1930s to the 1990s moving between fascist Italy and modern Ireland Mesmerizing a haunting novel that will stay with you long after you've put it down — Library Journal starred review
